Are you talking about the part of the white paper which talks about the 500B for founders to be locked?

Because the funds were never actually locked

Do you have that original white paper

Also yes I know who Benroth is

Laughed at "Also yes I know who Benroth is"

No, I'm almost positive there was a list of amounts that each founder put in. I have it somewhere

That would be amazing, if you have that

Let me look
